

GPIBS BIENNIAL RESEARCH EVALUATION

Student: _____ Year: _____ Semester: _____

Advisor: _____ Course: _____

SECTION I: STUDENT SELF-EVALUATION

1) Development: Summarize your research and academic progress since your last evaluation.

2) Challenges and resolutions: Describe any difficulties encountered and how they were addressed.

SECTION II: FACULTY ADVISOR EVALUATION

Please rate the student on the following categories.

Assessment Criteria	Needs Improvement	Meets Expectations	Exceeds Expectations
Scholarly Development: Does the student actively engage in activities that contribute to academic and scientific growth, including critical reading, writing, presenting, attending seminars, and participating in scholarly discussions?			
Research Progress: Does the student demonstrate timely and meaningful advancement in research, including generating data, analyzing results, and meeting project milestones?			
Communication with Mentor: Does the student maintain regular, effective, and professional communication? Does the student seek feedback and discuss progress, challenges, and goals openly?			
Lab Cooperation and Collegiality: Does the student work collaboratively and respectfully within the research environment. Does the student demonstrate teamwork, reliability, and a positive attitude toward lab peers.			

Provide a narrative summary of the student's overall progress this semester. Include strengths, accomplishments, areas needing improvement, and specific goals for the next semester.

SIGNATURE (Student): _____ **DATE:** _____

SIGNATURE (Advisor): _____ **DATE:** _____

Please submit the original to the Track Director. The student and mentor should keep a copy.
